Purpose of this Ministry

Training up a child in the way he should go and when he is old, he shall not depart from it.

The purpose of the youth ministry is to serve as a training ground in the fundamental ways of the church, its practices traditions and ceremonies.

The children are introduced to the Bible through Sunday school. They learn who the people are in the Bible. The children are taught the reason we celebrate different Christian holidays and the religious meaning behind each one.

Each child is welcome to work in several aspects of the normal function of the church. They are invited to serve on the usher board encouraged to lead devotions and ask to read the scriptures and pray. The choir not only works with the ministry of music to the church but to seniors and those in hospital settings.
