Purpose of this Ministry

The purpose of the Usher in a church is to make people feel welcome and to ensure that the service runs smoothly. Ushers are member of the church congregation who volunteer and are trained to assist with the administration and organization of the service.

Duties include getting, seating, collecting offerings, maintaining order, providing information for church services and functions, assisting with emergencies, preparing the sanctuary, participating in other duties.

The role of the ushers is a crucial part of worship because it is one of the most visible ministries in the church.
